FORRP100 - OSCILLATING ONE HAND SAW FOR PLASTER

GENERAL DESCRIPTION

The excellent construction of this ergonomically shaped high performance saw offers optimal handling. Plaster and plastic hard bandages could be opened safely and precisely. The saw works especially quiet and is largely maintenance free. The electronic setting of the number of revolutions allows the oscillation of the saw blade to be set exactly according to the requirements in each individual case. 220-230V 50Hz 180W Cable with plug 5 meters; Saw blade oscillations 12000-21000 1/min. Complete of 1 blade Ø65mm for plaster - 1 blade Ø65mm for plastic and one hexagonal key. 1,1Kg

TECHNICAL FEATURES

FORRP105

Plaster blade diameter 65mm

FORRP106

Synthetic plaster blade diameter 65mm
